I'm a Ph.D. candidate in ECE SNU, interested in the inversion of generative models and computational imaging.

Education

Ph.D. in Electrical and Computer Engineering – Seoul National University 03 2020 — 02 2026 (expected)
Advisor: Se Young Chun

B.S. in Electrical and Computer Engineering – Seoul National University 03 2016 — 02 2020

Mathematics and Physics – Gyeonggi Science High School for the Gifted 03 2013 — 02 2016

Services

[Technical Research Personnel¹](#) in SNU (Alternative military service) 03 2023 – 02 2025

[Technical Research Personnel²](#) in a designated company or research institute 03 2026 – 02 2027 (expected)

Journal reviewers: IEEE Sensors Journal 2023

¹The technical research personnel system is a form of alternative military service that enables companies (research institutes) designated by the commissioner of the Military Manpower Administration to utilize research personnel for the advancement of science and technology in Korea.

²In my case, I am required to serve in the designated company (or research institute) for one year starting from March 2026 to fulfill my military service obligations.
